St. Bonaventure University’s School of Business has taken its rightful place as one of the premier business schools in the world. We are one of the smallest institutions accredited by the Association for the Advancement of Collegiate Schools of Business (AACSB). We incorporate service learning into the curriculum, which uniquely links our Franciscan mission to the academic core of the School of Business. Students can earn their BBA in Accounting and an MBA in five years, all while qualifying for the CPA examination. All accounting majors are required to complete a minimum 400-hour, non-credit internship as part of the degree requirements. Over the past five years, 98 percent of the students in our 5-Year Accounting program were placed in jobs by the time they graduated.

To compile the list of 30 Great Small Colleges for an Accounting and Finance Degree, Master of Finance Degrees used criteria including accreditation (a pool of more than 500 colleges), regional or national rankings, and program features that stood out as compared to other peer institutions. All of the data analyzed on behalf of St. Bonaventure University came from College Navigator, a tool from the National Center for Education Statistics.
