

St. Bonaventure University is conducting a national search for a Programmer /Analyst who will provide application and programming support for Datatel Colleague, the University's enterprise information system. Reporting to the Executive Director of Information Technology, the Programmer/Analyst will work closely with the offices of Undergraduate and Graduate Admissions, Financial Aid, Institutional Research, and Registration.

Duties include:

- Implementation of new web-based enterprise applications
- Implementation of new system modules
- Development of new processes/workflows for existing modules
- Analyzes user requests for systems support and develops alternative systems and approaches to allow users to more effectively utilize Datatel administrative software.
- Programming and analytical support
- Development of system interfaces
- Generation of reports as requested
- Training of staff in end-user applications as necessary

Qualifications: Bachelor's degree in computer science or related field; four years experience providing analytical and programming support for Datatel Colleague. Experience with admissions, financial aid, and/or registration preferred. Other qualifications include:

- Experience with both programming and applications support.
- Knowledge of relational databases and associated tools.
- Ability to evaluate data, review alternatives, and make decisions and recommendations.
- Ability to communicate effectively, both orally and in writing.
- Knowledge of the principles, practices, developments and techniques in supporting large integrated database systems.
- Knowledge of the practice and principles of good leadership.
- Experience developing applications and interfaces that enrich the functionality of administrative systems.

This is a full-time salaried position with standard benefits due University employees. Seek to fill the position as soon as possible.

Please forward cover letter, resume, salary requirements, and names/addresses of three professional references to:
