How to create a digital signature in Adobe Acrobat
Open up the .pdf form you need signed.

Look for the digital signature block

Click the block
Click OK
Choose a new digital ID to create now.
Choose
Fill in the information for the individual that will be digitally signing.
Fill in the information for the individual that will be digitally signing

See examples pertaining to military
Now you have to create a password (twice).

You must use numbers, upper case and lower case letters.

Once complete, click Finish.
To sign, just enter the password you created and click Sign.
Name your document and save it where you can find it.
The document will now show the digital signature.
