These unpaid, pre-professional opportunities are great for developing workplace skills, learning about a career, gaining experience, and building a professional network.

Providing quality support & service from pre-departure to on-site, CEA offers an internship placement guarantee to all enrolled applicants. We carefully match you with internship experiences, keeping your specific skills, interests, and goals in mind.

All CEA internships include a three-credit academic seminar called The Multicultural Workplace that meets 3-4 hours per week (once or twice per week). This course allows you to share your experience, reflect upon the work you’ve been doing, and learn from weekly highs and lows with a skilled faculty member. For those completing a full time internship, we also include a capstone project that will provide you with a career portfolio upon completion of your internship experience.

Beyond our CEA Internships highlighted above, we also offer internships in collaboration with our university partners in the following locations:
