# Housing

Where will you live when you go abroad?

## APARTMENTS

When you choose apartment living, CEA will find you and your roommates a vetted apartment, and take care of the booking. This is a great option if you want to live with other U.S. students, in close proximity to locals.

## RESIDENCE HALLS

Residence halls are student-only buildings where you can interact with non-CEA students from all over the world, as well as local students enrolled in one of the city's educational institutions.

## HOMESTAYS

This option is ideal for language immersion in any of our locations where English is not the primary language. CEA places you with a local family who can guide you in navigating and assimilating into the city's culture.

## INDEPENDENT LIVING

If you prefer to take care of your own housing, CEA always gives you the choice to do so.

Other housing options available by location. See the housing section of each city page.

CEA works with students in need of special housing accommodations, to make sure that need is met. Talk to a site specialist for more details.

“

Studying abroad will be the best semester of your whole time in college. Take advantage of every opportunity and be open to new experiences!”

EMMA CAMERON  
Prague, Czech Republic

# CEA Study Centers

Our academic programs shine at CEA's study centers.

Think of a study center as a CEA learning space abroad, where you can attend class alongside other CEA students from the U.S. and have exclusive access to the building's facilities. At study centers, our faculty members use an American teaching style and academic calendar aligned with U.S. universities. You receive the maximum amount of support and your instructors' personalized attention, benefits of our small class sizes. A CEA study center is home base in a brand new environment, a source of familiarity where everything else is unfamiliar.

All of our study centers are well-located in their respective cities, to give you easy access to important landmarks, points of interest, and educational resources. We believe in active learning at CEA, and we picked our study center sites with that in mind.

Bottom line: CEA's study centers help you get the most out of your education while abroad.
