Standards of Conduct and Sanctions

St. Bonaventure University is an institution devoted to the Franciscan values of investigation, wonder, knowledge, love, reflection, wisdom, understanding and humility. These values are the core components of our community. As members of the St. Bonaventure University community, the University expects students, staff and faculty to act in congruence with not only New York State and Federal Laws, but also their own personal values, and the values of our Franciscan tradition.

St. Bonaventure University makes every effort to provide a safe and healthy environment for all members of our community. Alcohol and drug abuse is a matter of concern for our entire community. The University implements and enforces policies and procedures in order to develop and sustain a healthy campus community with respect to alcohol and drug abuse, while providing resources for intervention and assistance, in accordance with federal, state and local laws and other mandates.

Student Specific Policies and Sanctions

The purpose of the Student Code of Conduct is to provide guidelines to students so they can make informed decisions and understand what they should expect from themselves and each other. It is also designed to challenge students to further develop high personal standards and virtues while growing in our community. The judicial process is designed to educate students, and encourage them to reflect upon the decisions they make.

Sanctioning is intended to enhance student development. The complete Code of Conduct can be found here.

Alcohol

St. Bonaventure University expects its students to abide by New York State and Federal Laws with regards to possession and consumption of alcohol. St. Bonaventure students under 21 years of age are not permitted to possess or consume alcohol on campus. These programs provide information about treatment and support group services for individuals who seek help. Students/employees who are experiencing performance problems in the workplace may be required to undergo treatment for substance abuse, or be subject to disciplinary action up to and including dismissal. Those individuals who do undergo treatment for substance abuse will be expected to follow the prescribed aftercare program. Prevention and Education
St. Bonaventure University uses multiple strategies to provide comprehensive education regarding alcohol and other drugs. Programs, services and resources include the following:

On-Campus Substance Abuse Prevention Programming and Counseling Services

EverFi Online Educational Platform
St. Bonaventure University contracts with EverFi, creator of AlcoholEDU for College and other online courses focused on health, wellness, culture change and other issues specific to colleges and universities. AlcoholEDU for College is a 2.5-hour curriculum designed for first year students. It's designed for non-drinkers, light to moderate drinkers, and frequent heavy drinkers and offers students a personalized experience based on their drinking choices and readiness.
to change. The University also utilized AlcoholEDU Ongoing, a program designed for returning students, and AlcoholEDU for Sanctions which is required when a student is found responsible for a violation of the alcohol policy.

First Year Experience Mandatory Programming
Each year, as part of Welcome Days programming, freshmen are required to attend a presentation that specifically addresses issues surrounding alcohol and other drug abuse among college-age students.

Assessment and Substance Abuse Counseling
Assessment and substance abuse counseling is primarily provided as an educational sanction for St. Bonaventure students who have violated the University’s alcohol and/or drug policies. As part of the judicial process, students in repeat violation of institutional policies, or other students who may be considered at risk, are referred to counselors in the Center for Student Wellness for assessment by the Vice President for Student Affairs, the Associate Dean for Student Life or their designee, or by Judicial Boards. Additionally, evaluation from a counselor in the Center for Student Wellness is generally required of any student needing medical attention as a result of over-consumption of alcohol or other drugs. All students and employees of the University are welcome to voluntarily utilize these programs, or speak to a counselor about referring another person. Referrals to outside agencies and local substance abuse treatment centers are also available.

Residence Life and C.A.R.L. Programming
The Residence Life Office works to provide educational programming on a wide range of topics, including drug and alcohol awareness. Additionally, the Center for Activities, Recreation and Leadership consistently provides alcohol-free late-night programming. CARL programs and events seek to encourage student wellness, while engaging students in positive, safe and healthy behaviors.

Student Wellness Programming
The Center for Student Wellness provides campus educational seminars/talks on a variety of issues faced by students, particularly those coming to college for the first time. For the past several years, the Center has presented an event called “Lessons From the Addiction Highway,” where people in recovery from substance abuse come to campus and share their stories about how they wish they had made better choices at the age of the students.
