As a requirement of the Drug-Free Schools and Campuses Act regulations (36 C.F.R. Part 86), St. Bonaventure University is required to disseminate drug and alcohol policies and information to all students and employees on an annual basis. The purpose of this notification is to provide the campus community with:

1. Standards of conduct that clearly prohibit, at a minimum, the unlawful possession, use, or distribution of illicit drugs and alcohol by students and employees
2. A list of applicable legal sanctions under federal, state, or local laws for the unlawful possession or distribution of illicit drugs and alcohol
3. A description of the health risks associated with the abuse of alcohol or use of illicit drugs
4. A list of drug and alcohol programs (counseling, treatment, rehabilitation, and reentry) that are available to students and employees
5. A clear statement that St. Bonaventure University will impose disciplinary sanctions for violations of these standards of conduct and a description of those sanctions, up to and including expulsion or termination of employment and referral for prosecution

Standards of Conduct and Sanctions

As members of the St. Bonaventure University community, the University expects students, staff and faculty to act in congruence with not only New York State and Federal Laws, but also their own personal values, and the values of our Franciscan tradition.

St. Bonaventure University makes every effort to provide a safe and healthy environment for all members of our community. Alcohol and drug abuse is a matter of concern for our entire community. The University implements and enforces policies and procedures in order to develop and sustain a healthy campus community with respect to alcohol and drug abuse, while providing resources for intervention and assistance, in accordance with federal, state and local laws and other mandates. Policies apply to all on/off-campus activities that are sponsored by the University. Standards of Conduct also apply to student-sponsored social activities or professional meetings attended by employees that the University authorities and/or use any University resources.

Student Specific Policies and Sanctions

The purpose of the Student Code of Conduct is to provide guidelines to students so they can make informed decisions and understand what they should expect from themselves and each other. It is also designed to challenge students to further develop high personal standards and virtues while growing in our community. The judicial process is designed to educate students, and encourage them to reflect upon the decisions they make.

Sanctioning is intended to enhance student development. The complete Code of Conduct can be found [here](#).

Alcohol

St. Bonaventure University does not condone the underage use of alcoholic beverages, and promotes responsible behavior in those persons of legal drinking age that choose to consume. Therefore, underage possession and consumption of alcoholic beverages is not permitted on this campus. Persons twenty-one (21) years of age or older are permitted to possess and consume alcohol, provided they do so within the specified guidelines outlined below. In cases of substance abuse or misuse, individuals may be advised, and in some cases mandated, to attend University-sponsored educational programs and/or formal counseling programs. Within the definitions below, “residential facilities” applies to all singles, doubles, triples, suites, quads and apartments.

They will be responsible for their actions and must respect the rights of others.

No privately obtained alcoholic beverages may be brought into an organized event. Any organization or group that fails to comply with these regulations may lose its privilege of serving alcoholic beverages at events and/or the right to schedule facility use at St. Bonaventure University. No club or organization may sponsor events off campus where alcohol is served without authorization from the Vice President for Student Affairs, Associate Dean for Student Life or their designee.

Neither the University nor the police are in a position to ensure that students will not be harmed through alcohol abuse by themselves or others. Those who use alcohol are fully and individually responsible for their own actions, including the personal and legal consequences associated with illegal use, possession, or distribution of alcohol. Being under the influence of alcohol will not be a defense in any campus disciplinary or administrative proceeding.

Sanctions are **ALWAYS** the discretion of the judicial officer conducting the hearing, and several factors are taken into account. The following is a general guideline for what students could expect when found in violation of the University Alcohol Policy. However, this should not be considered policy, as each incident is handled on an individual basis. Additional sanctions may also apply based on accompanying violations of other University policies.

Drugs

St. Bonaventure University recognizes substance abuse in the workplace as a danger to personal health and safety. In addition, the unlawful use of controlled substances by employees in the workplace is inconsistent with the University's educational mission. As such, it is the policy of the University that the unlawful manufacture, distribution, dispensing, possession, or use of controlled substances in the workplace is prohibited. In an effort to promote a drug-free workplace and a drug-free campus community, the University urges its students/employees who experience drug-related problems to seek assistance through counseling given in drug and alcohol programs. These programs provide information about treatment and support group services for individuals who seek help. Students/employees who are experiencing performance problems in the workplace may be required to undergo treatment for substance abuse, or be subject to disciplinary action up to and including dismissal. Those individuals who do undergo treatment for substance abuse will be expected to follow the prescribed aftercare program. Those convicted of violating a criminal drug statute while in the workplace will face dismissal from University service.

Policies Regarding Possession, Use, and Distribution of Controlled Substances

St. Bonaventure University expects all students to abide by NYS and federal laws pertaining to possession, use and/or distribution of controlled and illicit substances. Although New York State has approved legislation to legalize marijuana, at the federal level marijuana is still classified as an illegal substance.

As St. Bonaventure University is a federal grant recipient and/or a federal contractor within the meaning of the Drug-Free Workplace Act, the University is required to take steps toward maintaining, and to certify to contracting and granting federal agencies that it maintains, a drug-free workplace. In addition, federal laws (including the Controlled Substances Act and the Drug Free Schools and Communities Act) prohibit marijuana at educational institutions and on the premises of other recipients of federal funds. In accordance with these laws, the University will not tolerate the unlawful possession and/or use of controlled substances on its premises. Students are prohibited from using, possessing, selling, purchasing, cultivating, processing, manufacturing or giving away marijuana/cannabis or its derivatives, in any form, on University owned or leased property. The possession and use of medical or recreational marijuana, even if lawful under New York State law, is also prohibited on University property.

For the definitions below, controlled or illicit substances include, but are not limited to, marijuana, mushrooms, edibles, dabs, cocaine, heroin, acid, etc. The following behaviors are strictly prohibited at St. Bonaventure University:

- **Possession of a Controlled Substance** – having on one's person, or knowingly being in the presence of, any controlled or illicit substances. Additionally, no one shall possess any prescription medication that is not specifically prescribed to him/her.
- **Use of a Controlled Substance** – taking or consuming a controlled or illicit substance. Methods of use include, but are not limited to, smoking, injecting, snorting, inhaling, ingesting, etc.
- **Distribution of a Controlled Substance** – providing controlled or illicit substances to others. This includes selling and/or giving a substance to someone else. Giving or selling to someone else medication prescribed to you is strictly prohibited. Additionally, aiding someone else in the distribution of controlled or illicit

substances is strictly prohibited.

- **Possession of Drug Paraphernalia** – having on one’s person and/or knowingly being in the presence of any device or materials utilized for the consumption and/or distribution of controlled or illicit substances. These include, but are not limited to, oil pens, grinders, bowls, bongs, hookahs, scales, needles, Dab Rigs, etc.

Typical Sanctions for Violation of University Drug Policy

Sanctions are **ALWAYS** the discretion of the judicial officer conducting the hearing, and several factors are taken into account. However, this should not be considered policy, as each incident is handled on an individual basis. Sanctions could be less or more severe, depending on the situation and circumstances. Any instance where the University has reason to believe a student is distributing a controlled substance, sanctions would be far more severe, and likely to include suspension or expulsion.

- Educational program evaluating behaviors relating to drugs

2nd Violation:

- **Smoke-free Workplace** - St. Bonaventure University guarantees its employees and students a smoke-free workplace. Smoking is prohibited in **ALL** indoor areas of the University, including University vehicles and all residence facilities, as well as **ALL** outdoor areas of the University main campus (*east and west side*) property.
- **Tobacco Products** - Sale of tobacco products is prohibited on campus.
- **Posting of Signs** - “Smoke-Free” signs will be prominently displayed. Additionally, copies of this policy will be posted on the University Web site, employee handbooks and available to all employees and prospective employees upon request.
- **Enforcement** - Complaints may be directed to the Associate Dean for Campus Safety, the University’s agent responsible for enforcing this policy, and/or the residence life staff for violations occurring in the

residence halls. Failure to comply with this policy places both the smoker and the University at risk of substantial civil penalty.

- Sanctions: Sanctions for students will be imposed as a result of a University judicial hearing.
- Repeated violations of this policy may be cause for severe disciplinary action up to and including dismissal from employment (for employees) or expulsion (for students). These sanctions will be assessed through already existing University procedures.

This prohibition applies to all University events and events held on University grounds or property, and applies to all members of the University community including faculty, staff, students, friends, volunteers, patients, customers, vendors, contractors, guests and visitors.

Employee-Specific Policies and Sanctions

Employee specific policies and sanctions can be found in the Staff Handbook and the Faculty Status and Welfare Handbook. St. Bonaventure University prohibits the unlawful manufacture, distribution, sale, purchase, possession or use of any drugs or controlled substances or drug paraphernalia along with the unlawful service, distribution, sale, possession, consumption or other unlawful use of alcoholic beverages by its employees on its owned, operated or controlled property. Employees who violate this policy will be subject to appropriate disciplinary action, which may include counseling, mandatory participation in an appropriate rehabilitation program, a warning, placement on strict probation, unpaid suspension from employment, termination of employment and/or referral to the proper law enforcement authorities for prosecution.

St. Bonaventure University is required by the Drug-Free Workplace Act of 1988 to take steps toward maintaining a drug-free workplace. Any employee engaged in the unlawful manufacture, distribution, dispensation, possession or use of controlled substances in the workplace will be subject to discipline, up to and including discharge. The University will weigh all relevant facts and circumstances in reaching a decision to discipline; the University retains the right to require that a covered employee who engages in prohibited conduct participate in, and successfully complete, a drug abuse assistance or rehabilitation program.

Prevention and Education

St. Bonaventure University uses multiple strategies to provide comprehensive education regarding alcohol and other drugs. Programs, services and resources include the following:

On-Campus Substance Abuse Prevention Programming and Counseling Services

EverFi Online Educational Platform

St. Bonaventure University contracts with EverFi, creator of AlcoholEDU for College and other online courses focused on health, wellness, culture change and other issues specific to colleges and universities. AlcoholEDU for College is a 2.5-hour curriculum designed for first year students. It's designed for non-drinkers, light to moderate drinkers, and frequent heavy drinkers and offers students a personalized experience based on their drinking choices and readiness to change. The University also utilized AlcoholEDU Ongoing, a program designed for returning students, and AlcoholEDU for Sanctions which is required when a student is found responsible for a violation of the alcohol policy.

First Year Experience Mandatory Programming

Each year, as part of Welcome Days programming, freshmen are required to attend a presentation that specifically addresses issues surrounding alcohol and other drug abuse among college-age students.

Assessment and Substance Abuse Counseling

Assessment and substance abuse counseling is primarily provided as an educational sanction for St. Bonaventure students who have violated the University's alcohol and/or drug policies. As part of the judicial process, students in repeat violation of institutional policies, or other students who may be considered at risk, are referred to counselors in the Center for Student Wellness for assessment by the Vice President for Student Affairs, the Associate Dean for Student Life or their designee, or by Judicial Boards. Additionally, evaluation from a counselor in the Center for Student Wellness is generally required of any student needing medical attention as a result of over-consumption of alcohol or other drugs. All students and employees of the University are welcome to voluntarily utilize these programs, or speak to a counselor about referring another person. Referrals to outside agencies and local substance abuse treatment centers are also available.

Residence Life and C.A.R.L. Programming

The Residence Life Office works to provide educational programming on a wide range of topics, including drug and alcohol awareness. Additionally, the Center for Activities, Recreation and Leadership consistently provides alcohol-free late-night programming. CARL programs and events seek to encourage student wellness, while engaging students in positive, safe and healthy behaviors.

Student Wellness Programming

The Center for Student Wellness provides campus educational seminars/talks on a variety of issues faced by students, particularly those coming to college for the first time. For the past several years, the Center has presented an event called "Lessons From the Addiction Highway," where people in recovery from substance abuse come to campus and share their stories about how they wish they had made better choices at the age of the students.
