Fire Alarm/Sprinkler Systems Notification

In following laws passed by the New York State Legislature, the purpose of this bulletin is to notify students as to the type of fire alarm/sprinkler systems in St. Bonaventure University Housing.

Devereux Hall
Has a fire alarm/detection system throughout the building going to a 4020 central panel. Each bedroom on the 1st, 2nd, 3rd, & 4th floors which house students has a 9V smoke alarm. The 9V smoke alarm is not connected to the main panel (local sounding alarm only). Combo Smoke / CO Detectors are placed in the 1st floor bedrooms, they are hardwired with power but not connected to the central panel (local sounding alarm only). If either the 9V Smoke alarm or the CO alarm are activated students should contact Campus Safety & Security Office (716-375-2525). If the fire alarm is initiated an alarm will sound to evacuate the building. On the 3rd and 4th Floors on the South End of the hallway a Fire Escape can be used if the means of egress are blocked. The alarm will sound in the St. Bonaventure University Safety & Security Office and the Dispatcher will contact Cattaraugus County 911. Safety & Security Officers will respond to investigate all alarms and report back to the Safety & Security Office Dispatcher. If a source of CO or illness is detected a call will be placed to 911 and they will dispatch local fire and ems personnel. The fire alarm is inspected annually by a certified company. All 9V smoke & combo smoke / CO alarms are inspected and batteries changed annually by Safety & Security Department. There is no sprinkler system in Devereux Hall.

Doyle Hall
Has a fire alarm/detection system throughout the building going to a 2001-3080 central panel. Each bedroom on the 1st, 2nd, 3rd, & 4th floors which house students has a 9V smoke alarm. The 9V smoke alarm is not connected to the main panel (local sounding alarm only). 10yr battery operated CO alarms are placed on the lowest living floors (Basement & 1st Floor), these are placed on the wall in the hallways, and they are not tied into the main fire panel (local sounding alarm only). If either the 9V smoke alarm or the CO alarm are activated students should contact Campus Safety & Security Office (716-375-2525). If the fire alarm is initiated an alarm will sound to evacuate the building. The alarm will sound in the St. Bonaventure University Safety & Security Office and the Dispatcher will contact Cattaraugus County 911. Safety & Security Officers will respond to investigate all alarms and report back to the Safety & Security Office Dispatcher. If a source of CO or illness is detected a call will be placed to 911 and they will dispatch local fire and ems personnel. The fire alarm is inspected annually by a certified company. All 9V smoke alarms are inspected and batteries changed annually by Safety & Security Department. There is no sprinkler system in Doyle Hall.

Falconio Hall
Has a fire alarm/detection system throughout the building going to a 4100 ES central panel. Each bedroom on the 2nd & 3rd floors which house students have a smoke detector with a sounder base. This building is also fully equipped with a sprinkler system that is also tied into the main panel. On the 1st Floor bedrooms they have a combo smoke / CO detector sounder base. If the CO alarm is activated students should contact Campus Safety & Security Office (716-375-2525). If the fire alarm or sprinkler systems are initiated an alarm will sound to evacuate the building. The alarm will sound in the St. Bonaventure University Safety & Security Office and the Dispatcher will contact 911. Safety & Security Officers will respond to investigate all alarms and report back to the
Safety & Security Office Dispatcher. If a source of CO or illness is detected a call will be placed to 911 and they will dispatch local fire and ems personnel. The fire alarm and sprinkler systems are inspected annually by a certified company.

Francis Hall
Has a fire alarm/detection system throughout the building going to a 4100 U central panel. Each bedroom on the 2nd, 3rd, & 4th floors which house students have a smoke detector/sounder. 10yr battery operated CO alarms are placed on the lowest occupied floors (Basement & 1st Floor), these are placed on the wall in the hallways, and they are not tied into the main fire panel (local sounding alarm only). If the CO alarm is activated students / employees should contact Campus Safety & Security Office (716-375-2525). If the fire alarm is initiated an alarm will sound to evacuate the building. On the 2nd, 3rd, and 4th Floors on the South End of the hallway a Fire Escape can be used if the means of egress are blocked. The alarm will sound in the St. Bonaventure University Safety & Security Office and the Dispatcher will contact Cattaraugus County 911. Safety & Security Officers will respond to investigate all alarms and report back to the Safety & Security Office Dispatcher. If a source of CO or illness is detected a call will be placed to Cattaraugus County 911 and they will dispatch local fire and ems personnel. The fire alarm is inspected annually by a certified company. There is no sprinkler system in Francis Hall.

Loughlen Hall
Has a fire alarm/detection system throughout the building going to a 4100 U central panel. Each bedroom on the 1st, 2nd, 3rd, & 4th floors that house students have a smoke detector with a sounder base. The building is fully equipped with a sprinkler system that is also tied into the main panel. 10yr battery operated CO alarms are placed on the lowest living floors (Basement & 1st Floor), these are placed on the wall in the hallways, and they are not tied into the main fire panel (local sounding alarm only). If the CO alarm is activated students should contact Campus Safety & Security Office (716-375-2525). If the fire alarm or sprinkler systems are initiated an alarm will sound to evacuate the building. The alarm will sound in the St. Bonaventure University Safety & Security Office and the Dispatcher will contact Cattaraugus County 911. Safety & Security Officers will respond to investigate all alarms and report back to the Safety & Security Office Dispatcher. If a source of CO or illness is detected a call will be placed to Cattaraugus County 911 and they will dispatch local fire and ems personnel. The fire alarm and sprinkler system is inspected annually by a certified company.

Robinson Hall
Has a fire alarm/detection system throughout the building going to a 4100 ES central panel. Each bedroom on the 2nd & 3rd floors which house students have a smoke detector with a sounder base. This building is also fully equipped with a sprinkler system that is also tied into the main panel. On the 1st Floor bedrooms they have a combo smoke / CO detector sounder base. If the CO alarm is activated students should contact Campus Safety & Security Office (716-375-2525).If the fire alarm or sprinkler systems are initiated an alarm will sound to evacuate the building. The alarm will sound in the St. Bonaventure University Safety & Security Office and the Dispatcher will contact Cattaraugus County 911. Safety & Security Officers will respond to investigate all alarms and report back to the Safety & Security Office Dispatcher. If a source of CO or illness is detected
a call will be placed to Cattaraugus County 911 and they will dispatch local fire and ems personnel. The fire alarm and Sprinkler systems are inspected annually by a certified company.
