

Process for entering/uploading COVID-19 booster immunization through the [SBU patient portal](#):

Please enter your COVID vaccine booster information through the “Immunization” tab in the SBU portal in the appropriate vaccine area. There is not a specific section for “boosters”, you should enter your booster as a dose for the appropriate vaccine that you received. For example, if you previously entered 2 doses of Moderna/Pfizer as your initial series and received the same vaccine type as a booster, enter your vaccine booster date in the Dose #3 box for Pfizer/Moderna. If you previously entered 2 doses of Moderna as your initial series and received a Pfizer booster, enter your vaccine booster date in the Dose #1 box for Pfizer (or vice-versa). Additionally, you will need to provide documentation of your booster vaccine by uploading a new copy of your COVID vaccine card or other documentation proof of the booster vaccine (an immunization record). You will do this through the “Upload” tab in the patient portal and select "COVID 19-Vaccine Card".

If you wish to send documentation of your COVID-19 booster directly to the Center for Student Wellness as opposed to uploading to the patient portal, you can fax documentation via secure fax to the Wellness Center at (716)375-7892. If you have any questions, you can contact the Center for Student Wellness at (716) 375-2310 or email healthservices@sbu.edu.
