MIDDLE-HIGH SCHOOL
JURIED ART DIGITAL EXHIBITION
Arts Education Programming at the Regina A. Quick Center for the Arts is fully funded by the Thomas T. and Mary W. Clarkson Arts Education Endowment, established by the family of Mr. Leslie C. Quick III. We are continually grateful to the Quick Family for their support of the Arts in our local communities.

This project was made possible in part by the Institute of Museum and Library Services [CAGML-246991-OMLS-20].

The views, findings, conclusions or recommendations expressed in this catalog do not necessarily represent those of the Institute of Museum and Library Services.

About IMLS
The Institute of Museum and Library Services is the primary source of federal support for the nation’s approximately 120,000 libraries and 35,000 museums and related organizations. The agency’s mission is to inspire libraries and museums to advance innovation, lifelong learning, and cultural and civic engagement. Its grant making, policy development, and research help libraries and museums deliver valuable services that make it possible for communities and individuals to thrive. To learn more, visit www.imls.gov and follow us on Facebook and Twitter.

About MANY
The Museum Association of New York inspires, connects, and strengthens New York’s cultural community statewide by advocating, educating, collaborating, and supporting professional standards and organizational development. MANY ensures that New York State museums operate at their full potential as economic drivers and essential components of their communities. To learn more, visit www.nysmuseums.org and follow us on Facebook, Twitter, Instagram, and LinkedIn.

My favorite thing about art is that you can be creative and use your imagination. You can express your feelings in art. This artwork relates to the "new normal," while it also relates to the famous artist Piet Mondrian. It is even wearable!

Besides an artist, I am a member of the Student Activity Council, National Junior Honors Society, and play Basketball. I also like to read, dance, and practice the guitar.

Grade: 6
SOFIA GOMEZ

I have been creating almost all forms of art since I was 2 years old. With this piece specifically, the message I am trying to send is that Love is Love.

Besides creating art, I also enjoy singing and acrobatics.

My favorite thing about art is that you can create anything you want and it’s so fun and relaxing. The thing I like best about my artwork is that I created it and I tried my best even though I’m a perfectionist. I also love all the colors in it. I also play volleyball, basketball, track, and dance.

I’ve personally been creating art since I was able to pick up a pencil, and even before that painting with my grandma. With my artwork, I like to create awareness of mental health and normalize in art that we don’t always have to paint, draw, (etc.) the happy feelings - it can be emotions like anxiety, depression, and fear that many people face on a daily basis including myself. My painting is meant to represent my struggles with anxiety.

My favorite hobbies are to paint, listen to music, play guitar, and play video games!

Included with my exhibition image is a self-portrait, it was a style choice to blur out the eyes.

I think my favorite thing about art is that you’re free to do anything you’d like. Art is very flexible, you aren’t limited to one thing- to make “art” you could be drawing, painting, taking pictures, making music... Plus, when making art you have the right to choose whatever you want to make your piece about! You don’t have to be good either, it’s really about having fun!

When making a piece of artwork I like to put my emotions into it! I could be sad, mad, happy- any emotions that could pop into your head- and I would sit down and start drawing, or painting... It adds an essence to the piece that I can’t normally get if I’m just mindlessly doodling.

Some of my other interests include music, video games, and fashion! I also enjoy writing and I’m learning to play the ukulele (someday I hope to play a guitar) I also participate in “Odyssey of the Mind.”

I have been creating art my whole life and I love how you are able to express your emotions through it - like what I am trying to share in this piece. My favorite artist is Sam Bee; he isn’t too well known, but his art is amazing.

I enjoy all types of art including painting, sketching, drawing, and writing while I’m also interested in counseling, psychology and surrealism.

My favorite thing about art is that the possibilities are endless. There are so many ways that you could execute a single project. I love the fact that there are so many options when it comes to making art. For example, when you look at my artwork, one of the things I like best about it would have to be the color palette. I think that the cool colors go nicely together. From the blues to the purples the colors create a beautiful palette.

My other hobbies are golf and music. I am involved in chorus, band, marching band, and JH Basketball.

Fox Den
Ceramic
Grade: 6

I have been creating art since I’ve been in school. With this piece I was inspired by some baby fox kits I saw last year. I have always liked foxes, so when my teacher said to create something in our area that dens or hibernates, I chose that.

I am in 4-H and show my horse in different horse shows. I love my cats, goats, and beta fish as well. I really enjoy playing volleyball and will be on my school’s volleyball team this coming fall 2021.

In Art, my favorite thing to do is draw because it makes me calm and makes me proud of what I can do. Art is fun and allows me to be creative. In my artwork, I love the different choices of color and how it makes it pop.

In addition to creating art, I play baseball, hockey, and golf. I am part of the FFA, National Junior Honor Society, and 4-H. I raise and show pigs. I also love to wakeboard and snowmobile.

JARED DAY
I love art because you can express anything or any emotion through it. With this piece, I designed it to match the emotions of two characters that are opposites of one another.

In addition to creating art, I play field hockey and practice air rifle.

Grade: 7
I like how through art, you can express yourself and your feelings. In this work of art, the thing I like best is the different, unique shapes I used in it.

In my free time, I like to do photography and spend time with my alpacas. I am in 4-H and show alpacas at the Erie County fair. I also like to draw home designs when I am bored.

My favorite thing about art is how anybody can have an idea in their head and can put it on a canvas, paper, etc. I love to see ideas come to life and see how different people view the same things. With this piece for example, I didn't think it was going to look good popping out, but when it was finished I loved how it turned out.

My favorite thing about art is being able to express any emotion, even the ones you can’t describe in words, you can describe them in art. My favorite media is alcohol-based markers and pens. I love the effect of this artwork because of the time it took to make it, I took thousands of little pieces from many different places and, gathered them into one spot.

In addition to making art I also enjoy animal care, dog training, photography and, spending time in nature.
I have been creating art since I was a toddler. I grew up with an art teacher as a mother who loved to bring creativity to light in my life. My favorite aspect of my art is the depth behind each piece I create. Most pieces of art I create have meaning behind it or tell a story.

I also enjoy skiing, soccer, and tennis when I am not creating new works of art.

I have been making art for about four years now and I love how art can be used to express feelings and put meanings into photos / drawings. I adore digital photography with photoshop because it can go with me anywhere and I personally love with this photograph how the sun makes the light bulb look like its lighting up as if it was inside a house.

I am a junior at Frewsburg Central School, participating and creating art all years of my schooling. I enjoy creating art and testing my artistic abilities.

Bringing ideas to life with art has always been enjoyable for me. My favorite medium is definitely just free hand drawing. Drawing is very relaxing to me.

Specifically, the clover or “Shammy” is very important to my family since we are Irish. The glass pieces in the clover are from my second home, Barcelona in Westfield NY.

Since I was barely walking to my 16th birthday I have camped up on the lake with my family collecting glass, having bonfires, and enjoying beautiful sunsets.

I have been creating art for a couple years now; I've always enjoyed art. I think that trees are really pretty when you make them into art and with this piece I really thought the wire would make it stand out.

Besides creating artwork, I also enjoy roller skating, four wheeling, and sports.

My favorite artist is Andy Warhol, because of the bold statements in his pieces. He was a large influencer for the modern pop-art era and surrounded himself with many other creatives of his time. My favorite piece by Warhol is Skull, 1976. I love Warhol’s use of bold color as a contrast instead of using everyday earth tones.

In my work, I adore painting animals, insects, creatures, etc. I’ve recently worked on a series of arachnids, admiring their beauty instead of shaming them for their faults. Everyone has their fears, but spiders are the least concerning critter compared to the turmoil someone might face in their life.

When not working on my art, I am in the Orchestra, Concert Band, Marching Band, Gay-Straight Alliance Club and also a member Artworks on The Summit. I enjoy gardening, theatre, reptile/amphibian keeping, and videogaming.

PAINTING

MACKENZEFY HOLMES

Self-Portrait

Acrylic

Grade: 12
I was really looking to prioritize color on this piece and how different colors interact with each other in a natural scene - I think that worked out great. I was also very happy with the inclusion of houses and buffaloes in the painting that sort of grounded the whole scene quite nicely. This work is in oil but overall, I'm a very big fan of watercolor. It's not a very messy medium and it feels very fluid and natural for me.

I participate in marching band, theatre, and student government. I also enjoy writing, movies, music, tennis, and birdwatching.
